

AKC Rally Obedience

If you want to do something engaging with your dog beyond casual walks but don't have the time to do competition obedience or agility, this AKC sport can be your answer! This growing sport is a fun experience and easy to do.

Basic obedience exercises are performed in a station-based course. 10-15 Signs per course indicate which exercises need to be performed with your dog at each station. All dogs can participate. The rules, especially on the Novice level, are very accommodating, allowing you to assist your dog to some degree.

Applied Canine Behaviors is proud to offer Rally Novice, Advanced, and Excellent Classes as part of our training program!

Please contact us for further questions about this sport or if you like to sign up for our next class!
