

Rules While on Premises

1. Please treat our property as if it were your own – keep it **tidy** and treat it with **respect**.
2. Dogs must be **on leash** at all times while on premises unless actively engaging in a specific training exercise with the trainer, or for an otherwise approved activity.
3. Please **latch the gate** upon entering and exiting the premises.
4. Please **clean up** after your dog – there are bags around the property and a trash bin by the property entrance.
5. Clients visiting for a training session, please have a bowl and water for your dog regardless of temperatures. Always have their preferred toys/treats and collars/leashes available.
6. Clients bringing more than one dog, please keep the **non-working dog crated** while you work the other.
7. Please be mindful of posted signs that suggest that **doors/gates** around the barn should **stay closed** – sometimes we have a delicate training situation or are exercising our boarding guests and some doors need to stay closed, accordingly.

**Thank you for your understanding and participation
in keeping these grounds clean and safe!**
